Patient Communication Scripts

Clear, courteous messages for common patient and provider situations

Tone guide: formal, warm, and brief. Use the patient's name, state the next step, and never include sensitive medical details in unsecured messages.

1. Appointment Confirmation

Use right after booking.

Hello [Patient Name], your appointment with Dr. [Name] is confirmed for [date] at [time] at [location / video link]. Please bring your ID and insurance card. Reply YES to confirm, or call [number] if you need to make a change. Thank you!

2. Appointment Reminder (48 hours)

Use two days before the visit.

Good day, [Patient Name]. This is a friendly reminder of your appointment with Dr. [Name] on [date] at [time]. Please reply YES to confirm or call [number] to reschedule. We look forward to seeing you.

3. Refill Request Response

Use when a patient asks for a refill.

Hello [Patient Name], we received your refill request for [medication] and sent it to Dr. [Name] for review. You will be notified once it is approved, usually within [1–2 business days]. If your supply will run out sooner, please call us at [number].

4. Rescheduling

Use when a patient or provider needs to move a visit.

Hello [Patient Name], we understand that plans change. We can offer [option 1] or [option 2]. Please let us know which works best, and we will update your appointment right away. Thank you for your flexibility.

5. No-Show Follow-Up

Use within 24 hours of a missed visit.

Hello [Patient Name], we missed you at your appointment on [date]. We hope all is well. Please call [number] or reply to this message and we will gladly help you book a new time.

6. Post-Visit Follow-Up

Use after the visit.

Hi [Patient Name], thank you for visiting Dr. [Name] today. Your visit instructions are attached. Please schedule your next follow-up in [timeframe]. If your symptoms get worse, call us at [number]. For emergencies, call your local emergency number.

Practice project with fictional data. No real patient information.
